

Homework -duplicate

You are N/S and are doing well in the local duplicate.

You bid a momma-poppa hand to 3NT and the lead is the Q diamonds.

Give an account of how :-

- i) you would play if the hand came up in rubber
- ii) how you *might* consider playing it in the duplicate

1)	N	S
	K2	987
	654	AKJ10
	AK5	432
	QJ1098	AK3

This next one is , if not advanced , certainly something you need to know earlier than later if you are going to win at duplicate.

- 2) It is a question of bidding.
You are not a fan of this bulldozing approach that South favours and you will certainly be taking that up with her later. In the meantime you have to decide whether to pass 5D or make what may be a foolish bid of 6D.
What would be the argument for bidding 6D at duplicate ?

N	S
1D	1S
2NT	5D
?	
87	
AQJ	
AK987	
K65	

- 3) Its the last round of the duplicate and you need a good result if you are to win. The player on your right is quite a free spirit and seems determined to upset your day. Its your bid anyway . Which is ?

N	E	S	W
1H	2D	2H	3D
3H	4D	?
